Commercial and consumer Debt charge offs are on the rise and so are bankruptcy filings. Is a notice that your debtor filed for bankruptcy the end of the collection line? No! Did you know, for example, that if your debtor fails to file certain documents with the court on time, the case is automatically dismissed? Or that in some cases the court doesn't allow a discharge of any debt at all? Especially since the 2005 overhaul of the Bankruptcy Code, there are a variety of things that can happen in the debtor's case that put you in a position to collect your debt in the bankruptcy case or to resume your collection efforts outside of the bankruptcy.

Join a panel of experts as they explain how and why to monitor a case file, the various ways a debtor's case can be dismissed, the importance of your filing a proof of claim and actions that you can lawfully take in the bankruptcy case.
